### **Attack on CGIL national head office**

Dear Colleagues,

UNI Europa stands in solidarity with our CGIL affiliates, CGIL and all Italian unions. This despicable raid on the national CGIL head office yesterday was a direct attack on trade unionism and democracy.

Whenever fascism raises its head, trade unions are one of the first targets, because the collective of workers are guarantors of democracy, freedom and justice. History will not repeat itself. 2021 is not 1922. We will not be intimidated. This attack only strengthens our determination to push back united and fight the enemies of democracy – in Italy, Europe and worldwide; at the workplace, in politics and in elections.

Please convey our support and solidarity to all the comrades of CGIL

In solidarity

President
